INSPECTION AND MAINTENANCE

Whether you use premier jacks, couplins, drawbar eyes, hinge assemblies or any other premier product, regular inspection nad maintenance are essential for proper function, keeping repair costs to a minimunm and above all, safe and efficient operation.

As part of our effort to assist you, premier has developed serviceability gages (picture at right) that help judge the useful life of each of our major product lines that help guide you through inspection, routine maintenance and part replacemnt, another resouce is our world wide web site at www.premier-mfg.com here you will find service guides, installation guides, distributor locations and links to trucking resources.

BOLT KITS

These individually packaged bolt kits make the hardware selection for your coupling and/or drawbar eye fast and easy.

Bolts kits 501 through 508 use coarse threaded Grade-8 fasteners and Grade-C crimp style locknuts for a strong and secure coupling or drawbar mounting system. Bolt Kit 511 uses coarse threaded L9 Grade bolts. 159 Bolt Kit has fine threaded Grade-8 fasteners
